

Additional Modules for Total Financial Management with Sage Intacct

Fixed Assets - Fixed assets and core accounting create an automated asset management system. Sage Intacct fixed asset accounting software accelerates and simplifies accurate accounting throughout the entire fixed asset management lifecycle. You work with a single set of asset-acquisition, depreciation, and disposal information that's automatically shared with the General Ledger, Accounts Payable and Purchasing.

[Inventory Management](#)

Track, value, and manage stock while maintaining accuracy at every step.

[Multi-Entity and Global Consolidations](#)

Easily manage complex financials for multiple locations and entities.

[Project Accounting](#)

Manage costs and revenue, keep projects on time, and maintain profitability.

[Revenue Recognition](#)

Account for multiple revenue types—subscriptions, licenses, and services.

[Sales and Use Tax](#)

Automatically calculate sales tax and VAT with our built-in Avatax integration.

[Spend Management](#)

Govern company purchasing vs. budgets and never exceed spending caps.

[Time and Expense Management](#)

Keep your team focused on client goals, not administrative tasks.

[Vendor Payment Services](#)

Power payments on American Express Global Commercial Services' platform.
